

Not Too Young

Middle schoolers find themselves living in an in between. They long for more freedom, more maturity, more people to see them as old enough to do just about anything. But in reality, they're still learning, growing, and developing in so many areas. This can leave them feeling like they'll never be old enough for big thing. That's why in this series, we want to empower students with the truth they're not too young to own and grow their faith.
