Envision DR partners with the National Alliance Church and One Child Ministries. Team DR will serve in local churches and at the national camp by doing work projects and engaging with children through daily programs and games. Fairhaven students will team up with Puembo students from Quito, Ecuador. Together, they will stay at a camp with meals provided.

Envision supports the ministry of OneChild, which works with local church leaders to reach families in at-risk communities living below the poverty line. These centers host family events and share the hope of the gospel in places that often resist a church presence.
